

SHEET AND TUBE CUTTING

Northern
METAL PRODUCTS

YOUR PROJECT DEMANDS PRECISION.
NORTHERN METAL PRODUCTS DELIVERS.

ADIGE SYS LC5

AUTOMATED TUBE AND FLAT SHEET LASER CUTTING SYSTEM

- Single laser source and cutting head
- Integrated sheet and tube processing
- Singularly automates multiple manual operations
- Quicker turnaround. Better yields. Increased efficiency

SHEET AND TUBE CUTTING

Northern Metal Products' LC5 laser cutting technology brings unparalleled capabilities to our production floor. The LC5 is unique in that it is designed to cut both tube and sheet metal in an automated fashion on one machine – without compromise. Whether your project calls for tube or sheet cutting of angled or flat material, the LC5 integrates typical fabrication steps, such as sawing, grinding, punching, drilling and machining into one single operation.

LC5 CAPACITIES

SHEET

MATERIALS	MAX
Stainless steel	0.375"
Carbon steel	0.750"
Aluminum	0.3125"
Brass	0.187"
Copper	0.187"

TUBE

MATERIALS	MIN	MAX
Round Tube	0.5"	4.5"
Square Tube	0.5" x 0.5"	4" x 4"
Rectangular Tube	0.5" x 1.0"	2.75" x 4.5"

Whatever demands, specifications or unique problem your project brings with it, we're ready. Northern Metal Products gets you what you need, how you need it, when you need it. It's that simple.

LET US BRING YOUR PROJECTS TO LIFE.
